

SHOWER G

THE SHOWER WEARS A TAILORED SUIT

The total look in the most intimate place of living expands: for the first time, GESSI customises the hardware of the shower enclosures, thus bringing the functional components to a higher aesthetic level. Gessi brings elements that are generally hidden in the spotlight, enhancing the details and making them hau-

te couture objects, such as jewellery or tailored clothes, to be worn in the wellness area. The most intimate living environment is thus embellished with elements that give beauty, pleasure and well-being in every detail, in a complete set dressed by GESSI.

LA DOCCIA INDOSSA UN ABITO SARTORIALE

Il total look nel luogo più intimo dell'abitare si amplia: per la prima volta GESSI personalizza l'hardware delle cabine doccia portando così i componenti funzionali ad un livello estetico superiore. Gessi porta elementi generalmente nascosti sotto i riflettori, valorizzandone i dettagli e rendendoli

oggetti d'alta moda, come gioielli o abiti sartoriali, da far indossare all'area wellness. L'ambiente più intimo dell'abitare si impreziosisce così di elementi che donano bellezza, piacere e benessere in ogni particolare, in un coordinato completo vestito da GESSI.

01 SWING SYSTEM

THE SPOTLIGHT IS ON FABRIC METAL

Woven Metal embellishes the different elements for openings and fixings, such as hinges and clamps, which can be combined with all the solutions and sizes of the made-to-measure, redefining proportions in a new key, recalling the iconic shape of Gessi, the Rettangolo.

RIFLETTORI PUNTATI SUL METALLO TESSUTO

Il Woven Metal impreziosisce i diversi elementi per le aperture e i fissaggi, come le cerniere e i morsetti, abbinabili a tutte le soluzioni e dimensioni del su misura, ridefinendone le proporzioni in una chiave inedita, richiamando la forma iconica di Gessi, il Rettangolo.

SHOWER G

ACCES- SORIES

02

REFINED DETAILS

Horizontal and vertical elements match each other through the handles and the towel holder accessories. In addition to the linearity of the shape, they contain within themselves a contrast between the round and the square; thanks to this, they can be matched to all Gessi's collections.

Because every detail wears GESSI's elegance.

DETTAGLI RICERCATI

Elementi orizzontali e verticali si abbinano tra loro attraverso le maniglie e gli accessori portasalviette. Oltre alla linearità della forma racchiudono un gioco di contrapposizione del tondo con il quadrato rendendole di fatto abbinabili a tutte le collezioni Gessi. Perché ogni particolare vesta l'eleganza GESSI.

SHOWER G

THE RIGOUR OF THE DESIGN PROCESSES

Gessi extends its range of action thanks to its consolidated experience and its unrivalled know-how in metalworking.

All the elements and mechanical operations of hinges and clamps have been developed and produced ad hoc internally through a complex and detailed design process. The opening systems for custom-made shower cabins are provided with fixed and hinged solutions. Different types such as single and double hinges and glass-wall and glass-glass clamps make safe installation easier. To complete the range, complements and technical accessories are provided to respond to all types of opening and configuration designs.

SWING SYSTEM

IL RIGORE DEI PROCESSI PROGETTUALI

Tutti gli elementi e i funzionamenti meccanici di cerniere e morsetti sono stati sviluppati e prodotti ad hoc internamente attraverso un complesso e particolareggiato percorso progettuale. I sistemi di apertura per box doccia su misura sono previsti con soluzioni fisse e a battente. Differenti tipologie come cerniere, singole e doppie, e morsetti vetro-muro e vetro-vetro agevolano l'installazione in tutta sicurezza. Per completare la gamma sono previsti complementi e accessori tecnici per rispondere a tutte le tipologie progettuali sia di apertura che di configurazione.

01

ACCESSORIES

A WANTED FEELING OF PLEASURE

Enhancing the metal components where craftsmanship and quality of workmanship are expressed. Like real jewels to be admired and touched for a daily pleasure in taking care of yourself. Decorated handles in 'woven metal' cover all design needs: single, double and in a range of sizes and vertical and horizontal solutions, even with towel holders.

UNA RICERCATA SENSAZIONE DI PIACERE

Valorizzare le componenti in metallo dove si esprime l'artigianalità e la qualità delle lavorazioni. Come veri e propri gioielli da ammirare e toccare per un piacere quotidiano nel prendersi cura di sé. Coprono tutte le necessità progettuali le maniglie decorate in 'metallo tessuto': singole, doppie e in un range di dimensioni e soluzioni verticali e orizzontali, anche con la funzione porta salvietta.

20 SHOWER G

NEW PROPORTIONS ENHANCE LINEARITY

The linear drains are made with an external visible plate embellished, in the central cover, with decorations and textures, and in all the Gessi finishes. Elegant elements available in a wide range of sizes to meet all design needs.

NUOVE PROPORZIONI ESALTANO LA LINEARITÀ

Gli scarichi lineari sono realizzati con una piastra esterna a vista impreziosita, nella cover centrale, da decori e texturizzazioni, e in tutte le finiture Gessi. Eleganti elementi disponibili in un ampio range di dimensioni per soddisfare tutte le esigenze progettuali.

03

DRA
INS

Thin and horizontally elongated, they welcome and emphasise the decorative play of the striped or diamond workmanship or the elegance of smooth or brushed surfaces.

Sottili ed allungate orizzontalmente, accolgono ed enfatizzano il gioco decorativo delle lavorazioni rigate o diamantate o l'eleganza delle superfici lisce o spazzolate.
